

Kayomarz Anklesvaria is a Digital Forensics and Cyber Security Professional associated with the **Cyber Security Corporation**, delivering specialized expertise across cybercrime investigations, electronic evidence, and enterprise cyber-risk assessments. His experience spans government enforcement assignments and corporate advisory roles, ensuring precision in execution, compliance with regulations, and strong operational preparedness.

With hands-on involvement in over **700** complex investigations, Kayomarz has played a critical role in the acquisition, preservation, analysis, and presentation of digital evidence in matters involving Financial Frauds, Data Breaches, and technology-enabled offences.

As a Cellebrite Certified Operator (CCO) and Cellebrite Certified Physical Analyst (CCPA), he brings advanced capabilities in mobile device forensics, encrypted data recovery, cloud artefact extraction, and multi-platform evidence correlation, operating in line with international forensic standards.

A recognized trainer and resource person, he has delivered capacity-building programs for law-enforcement, regulatory, and judicial institutions, including the **Judicial Academy – Assam, Maharashtra Police Academy**, Reserve Bank of India (**RBI**), Securities and Exchange Board of India (**SEBI**), and various State Tax Departments. His engagements have contributed to strengthening digital-evidence readiness and cyber-response capabilities across institutions.

In the corporate domain, Kayomarz works closely with organizations on cyber security audits, Vulnerability Assessment and Penetration Testing (VAPT), and risk-exposure evaluations. He also conducts cyber drills and simulated incident-response exercises to assess employee awareness, decision-making, and organizational resilience under real-world threat scenarios.
